

Shark H24

Single Phase, 2 Motor, HEPA Dust Extractor

The Shark H24 is a two engine HEPA dust extractor. It is equipped with a main filter as the first and two x H13 filters as the final. Each HEPA filter has been individually tested and certified to have a minimum efficiency of 99.99% at 0.3 microns which meets the new silica requirements. This professional dust extractor is excellent for building, grinding, plaster and concrete dust.

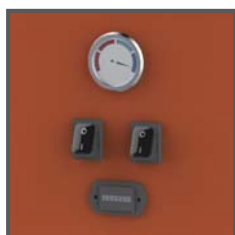

Main features:

1. OSHA compliant H13 HEPA filter
2. Unique jet pulse filter cleaning system, efficiently purges the pre-filter without opening the vacuum to maintain a smooth airflow, and to avoid creating a second dust hazard
3. Both the continuous bagging system for effective dust storage and a regular plastic bag system are compatible.
4. An hour counter and suction meter for filter control are standard

Model	Shark H24
Power (kw)	2.4kw
Voltage	240V 50/60Hz
Amps	10
Airflow (m ³ /h)	400
Vacuum (mBar)	220
Pre-filter	3.0m ² >99.5%@1.0um
Hepa filter(H13)	2.4m ² >99.99%@0.3um
Filter cleaning	Jet pulse filter cleaning
Dimension (mm)	570X710X1270
Weight (kg)	48
Collection	Continuous drop-down bag

Standard Accessories

Independent motor controls

Jet pulse filter cleaning

Pre-filter (F8)

Hepa filter (H13)

D70 aluminum inlet
